✅ Safety Matters

**A comprehensive tool for managing Safety Programs**

Safety Matters App is a comprehensive safety management app that helps keep your organization safe and compliant. With Safety Matters, you can:

- Conduct inspections and audits

- Report incidents and hazards

- Track safety performance

- And more!

Safety Matters is easy to use and can be customized to meet your organization's needs.

Features:

- Conduct inspections and audits: Safety Matters makes it easy to conduct inspections and audits of your workplace. You can create custom checklists, assign tasks to employees, and track progress.

- Report incidents and hazards: If an incident or hazard occurs, you can quickly and easily report it using Safety Matters. The app will generate a report that you can use to investigate the incident and take corrective action.

- Track safety performance: Safety Matters tracks your safety performance over time so you can see how your efforts are paying off. You can view reports on incident rates, safety audits, and training completion.

- And more!

Benefits:

- Keep your organization safe: Safety Matters helps you identify and mitigate hazards, so you can keep your organization safe.

- Reduce costs: Safety Matters can help you reduce costs associated with accidents and injuries.

- Improve compliance: Safety Matters can help you stay compliant with safety regulations.

- Increase productivity: A safe workplace is a productive workplace. Safety Matters can help you improve employee morale and productivity.
